

37 Car Vending Machines

09 Official Patents

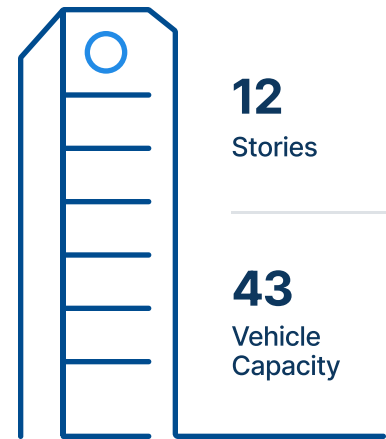

27 Cars Stored on Average

"One of the *most* unique, innovative car buying experiences."

-Scott Foster, Forbes 2021

The tallest Car Vending Machine has...

Historical Facts

The first patented Car Vending Machine was built in Nashville in 2015.

The first Car Vending Machines were manufactured entirely in Germany, down to every last bolt — even the windows — and shipped and reassembled in the USA. But now the majority of it is made in the USA.

How It Works

Insert your keepsake token.

Watch our Car Vending Machine dispense your vehicle.

Take it for a spin.

Sign your contracts and drive it home.
